** On reserve duty - crashing one bug at a time **

PROFESSIONAL SUMMARY

Versatile Full-Stack Engineer with a background in International Operations Management. Experienced at translating complex manual workflows into high-performance digital ecosystems. Specialized in modernizing legacy systems using React, .NET Core, and Node.js, with a proven track record of shipping real products.

TECHNICAL STACK

Languages:	C#, JavaScript (ES6+), TypeScript, Python.
Frontend:	React, Next.js, Angular, Redux/NgRx, Material UI, Tailwind CSS, CSS/SASS.
Backend:	.NET Core (Web API), Node.js (Fastify/Express), FastAPI/Flask.
Database & ORM:	SQL Server, PostgreSQL, MongoDB, Redis, Prisma, Mongoose.
Cloud & DevOps:	AWS (ECS, S3, Lambda), Docker, GitHub Actions (CI/CD), Render, Google Console.
Architecture:	Object-Oriented Programming (OOP), Domain-Driven Design (DDD), RESTful API, Microservices.
Tools & Testing:	Figma, Photoshop, Postman, DBeaver, Pytest, Jest, AI-Driven Development.

EXPERIENCE

Independent Developer | *Self-Employed, Israel*

2022-2026

- **Military Field Tool | React (Reserve Duty, IDF)**
 - Built and deployed an operational checklist tool during active reserve duty to replace manual tasks.
- **Cleaners Service Website | Next.js & Material-UI**
 - Took full ownership: brand identity, copy, design, engineering and deployment on AWS.
 - Achieved 100% SEO score, driving measurable increases in organic traffic and direct business inquiries.
- **Synagogue Management System | Angular 18 & Node.js**
 - Engineered an Angular 18 & *NgRx* web application to replace legacy Excel-based tracking for high-volume community data.
 - Developed a Node.js/Fastify backend with *MongoDB*, resulting in a 50% reduction in manual data entry overhead.
- **Football Academy Performance Platform | FastAPI & React**
 - Developed a player-tracking and service platform that increased player-coach interaction by 30%.
 - Eliminated third-party dependencies by building a custom UI with *Framer Motion* and a FastAPI backend, deployed via AWS.

Operations Manager | *ZipBCC, Zambia*

2018-2020

- Directed and mentored a 260-person cross-functional team, including 10+ shift leads, to orchestrate 24/7 mission-critical logistics for 1,200+ vehicles traffic daily.
- Achieved a 97% on-time clearance rate by systematically identifying bottlenecks and managing relationships with state officials to streamline throughput.
- Data-Driven Innovation: Conceptualized and deployed Live KPI dashboards for stakeholders, transforming raw field data into actionable business intelligence to drive executive decision-making.

PROJECTS & OPEN SOURCE

- Next.js Starter Kits: Maintain and contribute to 5+ open-source developer tools and boilerplate projects to streamline full-stack deployment.
- Football Live Scores: Developed a *mobile-first* React app utilizing *RapidAPI* for real-time sports data visualization and league stats.

EDUCATION & SERVICE

- Full-Stack Development: Technion, Israel Institute of Technology.
- Army Service: Combat Medic, Nahal Brigade.
- Languages: Hebrew (Native), English (Fluent), Spanish (Good).
